Big Picture

Turn Big data into Smart Data via Audience Science
to Drive Value Creation

- Provide **executives** with **actionable business insights**
- Provide **engineering teams** with models for customers' **better product experience**
- Provide **corporate citizens** with **guidance to increase efficiency**

Sessionization of Viewing History

- Combine all repetitive log datapoints as one time block if the state remained the same

Why Databricks?

- Suitable for a wide range of user groups
- Cost-effectiveness
- End-to-end machine learning lifecycle
- Support for distributed deep learning model training
